PROFILE

I'm a Bachelor of Engineering student at RLS institute of Technology with a strong interest in data science and technologies. I have hands-on experience with several projects. I think differently. Outside of academics, I take on leadership roles in clubs and participate in technical seminars to enhance my skills. I'm always looking to grow, learn new things, and contribute to the teams I'm part of.

EMPLOYMENT HISTORY

Intern, Prodigy InfoTech Bengaluru
Apr 2025 -- May 2025

- Worked on data science projects involving data visualization, exploratory data analysis (EDA), and machine learning.
- Analyzed, interpreted, and presented project results with technical reports and presentations.
- Applied EDA techniques to identify data trends and outliers.
- Collaborated with the team on optimizing data science workflows and suggesting improvements in industry settings.

EDUCATION

Bachelor of Engineering,
R.N.S Institute of Technology

Jul 2023 — Aug 2027

Pre-University, Narayan PU College

Mar 2021 — Apr 2023

High School, Narayan E-Techno

Bengaluru
